PROFESSIONAL EXPERIENCE

GLP – Senior Manager of Capital Operation; Shanghai, China

September 2020 - Present

- Closing GLP China Income Fund III (“GLP CIF III”) and China Income Fund IX (“GLP CIF IX”), two onshore income vehicles with a combined AUM of RMB 8.5 billion seeded by 23 stabilized industrial and logistics assets
- Leading the entire fundraising process including roadshows, financial modeling, market research, third party due diligence, term negotiation and transaction
- Generating quarterly and annual fund performance reports as the sole fund manager to inform investors and company leadership of recent developments of portfolio assets. The fund is performing on target
- Supporting the company’s ongoing fundraising efforts of different asset types including business parks and IDCs

Metropolitan Partners Group – Investment Analyst; New York City

December 2018 - July 2020

- Sourced deals that fit the fund’s strategy. Carried out due diligence to determine if companies have enough visibility into their near future financials through modeling and market research
- Underwrote a \$25MM, 3-year loan to US Home, a borrower that specializes in turning distressed homes into single family rental units. The deal performed on target and exited in 2021 with actual IRR of 18%
- Managed deals post-closing (\$150MM+ in combined exposure) by helping portfolio companies implement efficient and tailored reporting process, and conducting financial and performance analysis

Brightwire – Research Analyst; New York City

December 2017 - November 2018

- Published exclusive news and analysis covering China TMT, Macau gambling and Taiwan semiconductor industries
- Tracked policy changes in China based on primary government sources and generated political economy reports
- Created weekly China box-office data reports and monthly China express delivery data reports

AIA Group – Actuarial Intern; Shanghai, China

June - August 2016

- Supported pricing of a life annuity product by calculating gross premiums, cash surrender values, statutory reserves and carrying out profitability tests, including sensitivity analyses
- Performed experience review of a newly launched individual medical product and carried out claim trend analysis

PROJECTS

Columbia Engineering Coding Bootcamp

September 2018 - March 2019

- Lessons Learned: Front-end and Back-end Technologies, Database Theory, Algorithms
- Programming Languages/Framework: JavaScript, MySQL, MongoDB, Node.js, Express.js, REST API, React/JSX, Java

Actuarial Appraisal for Life Insurance Company

January - May 2016

- Developed an actuarial appraisal acting as consultant assistant for a life insurance company under the guidance of Mark Freedman, principal of Ernest & Young and past president of Society of Actuaries
- The project was featured by Columbia University to showcase the curriculum meets and exceeds industry needs
